

SPECIFICATIONS PURSUANT TO CT6.74# - SLASH TREATMENT REQUIREMENTS (02/2002)

Pile Landing Slash (PL)

Slash and other debris resulting from Purchaser's operations that has accumulated on landings that is greater than 1 inch in diameter up to 8 inches in diameter, or any piece exceeding 8 feet in length shall be piled (unless agreed to otherwise) for burning by the Forest Service.

Construction of landing piles: Piles shall contain little or no soil. Accumulations of soil that remain after Forest Service Burning will be leveled to normal ground contour. Slash piling operations shall not unnecessarily damage young growth or other trees to be reserved. Slash piles shall be located away from residual trees and young growth to prevent damage during pile burning.
